

# Product benefits at a glance

## Next-generation high-performance solar modules

### Made in Germany. Designed in Switzerland.

suppliers involved in production or directly in the product.

of these suppliers come from Europe and produce here

of our solar cells are made in Germany.

of our solar modules are made in Germany.

### Innovative and powerful.

Our patented Heterojunction SmartWire technology makes our solar modules extremely powerful and maximally durable. Guaranteed.

#### Meyer Burger Black & White

##### Product warranty

##### Linear performance warranty

Guaranteed minum performance after 25 years

#### Meyer Burger Glass

##### Product warranty

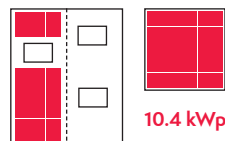

##### Linear performance warranty

Guaranteed minum performance after 30 years

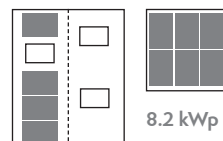

### An investment that pays off.

Meyer Burger solar modules allow for ideal use of roof space for maximum system power and more yield on every roof.

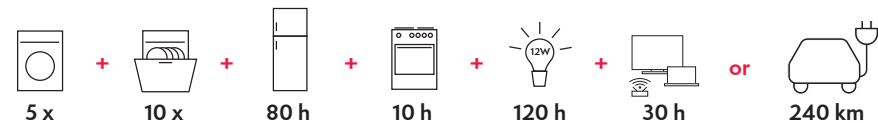

27 x Meyer Burger White  
385 Wp

20 x Average M10 module  
410 Wp

### Additional yield. Every month. For longer.

### Sustainable and fair.

-  100 % renewable energies
-  local value creation
-  no lead
-  no PFAS
-  low carbon footprint
-  resource conserving production
-  short energy payback time

### Carbon footprint

Global Warming Potential (GWP)  
[kg CO<sub>2</sub>Eq/MWh]
