FusionSolar Smart PV inverters

- ✓ Active Safety: AI-powered active arcing protection
- ✓ Plug & Play battery interface, future-ready
- ✓ Flexible design, with or without Huawei optimizers
- ✓ Optional 4G communication using Huawei Smart Dongle-4G

The FusionSolar subscription allows you, as a Huawei PV installer, to offer your clients a complete solution which does not rely on local (internet-) connections for providing a proper solution.

Huawei optimizer SUN2000-450W-P*

- ✓ Safe installment, no panel voltage, 0Vdc
- ✓ Suitable for all 60- and 72 cells panels
- ✓ Monitoring on panel-level

* Suitable for SUN2000 2-6KTL-L1

This subscription has been carefully put together in corporation with Huawei, and therefore can be offered to you as an installer at competitive rates and good conditions.

- ✓ A managed multi-network solution throughout Europe with a minimum of 3 networks per country
- ✓ No direction to preferred networks to ensure optimal functioning SIM cards
- ✓ Fraud prevention by only allowing (data) traffic to Huawei FusionSolar servers (no public internet allowed)
- ✓ Scalable model with transparent cost breakdown
- ✓ Lucrative collective offer by Huawei FusionSolar team
- ✓ Added revenue model for FusionSolar installers through invoicing of this service to end customer
